

# HW1 Supplemental Submission Doc

## Your information

Your name: Kyle Stocksdale

Your umich unique name: kstocks

Link to your Github page submission:

<https://kystocks.github.io/hw1-w25/>

Link to your Github code repo:

<https://github.com/kystocks/hw1-w25>

## Checking deployed code

Submit screenshots of the two deployed pages - **family.html** and **random.html** - **make sure that we can see the URL (it should include github.io).**

**Note:** These screenshots should be taken **AFTER** you have completed the first part of the assignment and fixed all of your code.

# 1. Two screenshots from Wave

Wave accessibility evaluation tool results for `kystocks.github.io/hw1-w25/random.html`.

**Summary:**

- Errors: 0
- Contrast Errors: 0
- Alerts: 0
- Features: 1
- Structural Elements: 6
- ARIA: 0

Congratulations! No errors were detected! Manual testing is still necessary to ensure compliance and optimal accessibility.

The following apply to the entire page:

- en

Buttons: [About Me](#), [My Family](#), [RANDOM STUFF](#), [UMSI](#)

## Random Page

Make sure you are doing the readings from the [W3 Schools HTML tutorial](#) as well as the readings from Shay Howe's [HTML and CSS tutorial](#).

Using the Piazza site is another great way to stay on top of your classwork

Wave accessibility evaluation tool results for `kystocks.github.io/hw1-w25/family.html`.

**Summary:**

- Errors: 0
- Contrast Errors: 0
- Alerts: 4
- Features: 2
- Structural Elements: 6
- ARIA: 0

Congratulations! No errors were detected! Manual testing is still necessary to ensure compliance and optimal accessibility.

The following apply to the entire page:

- en

Buttons: [About Me](#), [MY FAMILY](#), [Random Stuff](#), [UMSI](#)

## Family

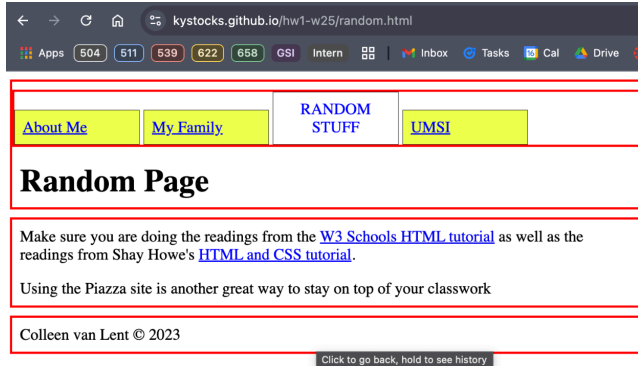

In 2016 I loaded my kids into the minivan and took them on a drive across the Northern midwest states. We went to Wisconsin Dells, the Badlands, Mount Rushmore, Jewel Cave, and Custer State Park.

A boy and two girls in zip line gear posing in front of sign for Sasquatch Lake

## Family

In 2016 I loaded my kids into the minivan and took them on a drive across the Northern midwest states. We went to Wisconsin Dells, the Badlands, Mount Rushmore, Jewel Cave, and Custer State Park.

I didn't plan for the fact that the Strugis Motorcycle rally would overlap with our trip. Many towns were closed to through traffic and the lack of internet required that we use paper maps. Often.

5. Two screenshots (one for each page) from the dead link checker at:  
<https://www.deadlinkchecker.com/website-dead-link-checker.asp>

The screenshot shows the 'dead link checker' website. The header includes the logo and navigation links: Site check, Multi check, Auto check, FAQ, Resources, and Blog. The main section is titled 'Site Checker: Free Broken Link Tool'. A text input field contains the URL 'https://kystocks.github.io/hw1-w25/family.html'. Below the input, there are two radio buttons: 'Check whole website' (unselected) and 'Check single webpage' (selected). A 'check' button is to the right. The results show '100% scanned - 12/12 URLs checked, 12 OK' and 'Scan completed with no errors!'. A 'Full report' button is available. Below the results, there are two bullet points: 'Check multiple sites at the same time - free - login or sign up for a free account.' and 'Check sites automatically on a regular basis with the Auto-Checker - see options.' At the bottom, there is a table with three columns: Status, URL, and Source link text.

Status	URL	Source link text
--------	-----	------------------

a.

This screenshot is identical to the one above, showing the 'dead link checker' website with the same URL, settings, and successful scan results. The table at the bottom is also empty.

Status	URL	Source link text
